

Thames Valley District School Board

Our school is committed to providing all students with a safe, caring, and inclusive learning environment free from bullying and harassment that promotes respect, acceptance, and empathy.

Our staff, students, parents, and community will work together as a team to make our school safe and welcoming for everyone.

Safe and Inclusive School Plan

Acceptance and inclusion through communication and education

This year we are focusing on acceptance and inclusion. We are doing this to help our students transition to new situations with greater ease and resiliency, to foster relationships within our community, and to ensure that our students are educated about diversity.

Throughout the year, we will be:

1. Engaging with our community partners and families/guardians to communicate and educate about inclusion.
2. Acknowledging positive acts that build and sustain an inclusive school community.
3. Incorporate more resources into our school library that celebrate the diversity in our country and specifically within our community and recognize holidays and celebrations of all religions.

Community/Home Connections

Encourage your child/children to use always be kind, and to advocate for themselves and others.

Check out [Parents for Diversity](#) for resources on education about diversity and inclusion.
