

Thames Valley District School Board

Our school is committed to providing all students with a safe, caring, and inclusive learning environment free from bullying and harassment that promotes respect, acceptance, and empathy.

Our staff, students, parents, and community will work together as a team to make our school safe and welcoming for everyone.

Safe and Inclusive School Plan

Ensuring Positive Learning Environments

 We will focus on strengthening relationships in our building while celebrating the diversity of our Arthur Stringer Community

We are doing this to help our students build a stronger sense of community in the school that embraces our diversity. We will do this by developing their resiliency and restorative problem solving skills.

Throughout the year, we will be:

1. Community spotlights celebrating who we are as a community (assemblies, announcements etc.). Reflecting our diversity in our spotlights.
2. A focus on the implementation Restorative Practices throughout the school.
3. Incentivizing positive acts that reinforce healthy relationships with all stakeholders.

Community/Home Connections

Ask your child about one act of kindness they did or saw throughout the day.

Encourage your child to consider a variety of points of view when talking about situations they see around them.

Help and encourage your children to use language that emphasizes the “can” instead of the “cannot.” Encourage a growth mindset.
